

# WAVESHAPER MOSKOW DISCO MKII

> Pure analogue synthetic sound from the Volga... now back with more sounds !

> Built like a tank with a funky design, you will be surprised by the raw sound of the ultra-rare **Marsh UDS** russian drum synth. The kick drum is huge, the snares and hats are sooo analogue, and this unit is also perfect for all kind of depitched toms and retro sci-fi FX.

This WaveShaper kit will bring you back into eighties goodness, but with its thick, blurbly, retromodernistic sound, you will also enjoy it on your electro, idm, minimal or space disco tracks.

> This WaveShaper pack is available in three flavours : "free", "pro classic", and "full pro mkII".

The **free** pack is made out of standard 44,1khz-16bit mono Wav files and features 49 samples. As the name suggests, it is free.

The "pro classic" and "full pro mkII" packs both use 24bit/48khz, stereo Wav files for an audiophile quality. The "pro classic" pack costs 3,90\$ and features 85 samples, while the "full pro mkII" pack gathers 600 samples for only 6,90\$.

**The "full pro mkII" samples pack gathers all the sounds from the "pro classic" version, and adds more than 500 fresh and new samples with many variations and an optimum sound quality.**
