

# WAVESHAPER / SYNTHAX ERROR VOL01

## > TRIAL & ERROR

> **Glitchy and nasty**, the **Synthax Error Vol01** sample pack features more than 140 one-shot drumsamples, and, as you might have guessed, *clean* is not its nickname ! Mangled, stretched, bitcrushed and distorted, various drum machines and synthesized sounds received a special treatment for some added sonic filth, dirt and corrosion.

> The *digital and proud* edge of this sample pack will easily find its way into your electro, edm, house, grime, idm or dubstep productions. It also feels at home with footwork, trap, jungle, skweee or drum & bass.

*All the sounds are organized in a convenient way*, so you can find them easily and don't waste time browsing folders endlessly.

- > As always with WaveShaper packs, you can decide to use the free kit or buy the “pro” one :

  - The **free** pack contains 32 one-shot sounds in 16bit, 44,1khz stereo.
